HOT/COLD COMBO DISPLAY

The Hot/Cold Combo offers versatility with 4 functions in a small footprint. Angled presentation is offered for heated and refrigerated product with top isolated assisted service!

#8 Mirror polished stainless steel interior ends optically enlarges the amount of food on display

Storage for hot dishes and ingredients

Neutral shelf for unrefrigerated food

cold

Storage for cold dishes and ingredients for finishing in front of the guest

Sliding, removable cutting and preparation board

VSHC4-34-R-SC-SE-ECS

Continuous LED lighting for natural colour rendition

(shown without interior top sneeze guard)

Long-wave, infrared warming bridge

Easy Change: liftable glass front

High transparency for a perfect view of the food on display

Main hotplate

An all-day concept – simple, fast, flexible

Constantly having everything ready and close at hand represents an important precondition for efficient preparation in front of the guest. Especially when the display is to be changed frequently between breakfast and dinner. However, the case's storage system ensures that none of these issues is a problem.
