CONCEPTS . . . TO REALITY!

Got a Product you'd like to show off to its Greatest Advantage?

The RPI Air Screen product line features refrigerated display cases that are simply the best solutions possible for showcasing a variety of different products. Manufactured to standard sizes, and available with an unlimited selection of attractive finishes, RPI's Air Screens allow for customization based upon your exact specifications to best enhance the display of your product line!

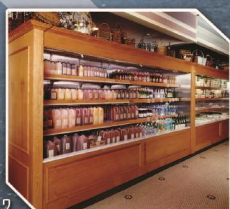

Our Goal is Simple!

To offer you superior value for a standard refrigerated display case! A One-Of-A-Kind design, or anything in between!

Our long standing proven ability to successfully combine refrigeration display with options ranging from custom millwork, to stainless steel fabrication, is your assurance that we can provide you the highest product consistency and continuity for your project regardless of its size!

There is no obstacle we can't handle!

LED LIGHTING

PART OF OUR GREEN SCREEN INITIATIVE, LED LIGHTING IS OFFERED AS A LOW AMPERAGE, MERCURY FREE, LONG-LASTING ILLUMINATION SOLUTION

GOING GREEN

We are comitted to this initiative by offering **OPTIONAL** construction for Olympus, Bandit and Bravo Air Screens with the following features:

- High efficient CFC Free Refrigerant
- LED Lighting: low amperage, mercury free, long lasting illumination
- ECM programmable High Efficiency evaporator fan motor and blade for low power consumption
- Electronic digital control and defrost termination minimizes times for defrost cycle. **FASTER RECOVERY, LESS ENERGY**
- Heavy Duty woven aluminum econofrost night shades reduce energy consumption for off peak hours
- Frames are constructed of recycled aluminum
- Stainless steel uses high percentage of recycled stainless and carbon steel
- Laminates are Wilsonart®
 - MR4 Recycled Content
 - MR5 Regional Materials
 - MR7 Certified Wood
 - FSC Certified - HD® and Aeon™ finishes
- Cabinet construction FSC (Forest Stewardship Council) certified wood products (When Specified)
- Pure Bond formaldehyde free adhesives and melamine
- 100% Recycled laminate finishes
- Standard Laminates *LEED® approved

HUSSMANN®

ISLA SERIES

Isla Series features an "all-in-one-area" way to display refrigerated, dry and hot products, by offering a unique "design-your-own island" merchandiser configuration. A variety of modules and flexible layouts that include 3-sided, 2-sided, in-line and stand-alone cases are available to accommodate the ideal footprint.

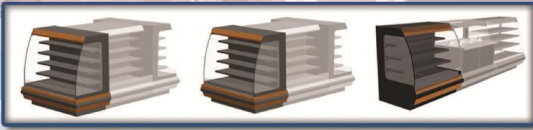

Three new ISLA food counters have been launched as part of the new in-line offering. The ISLA cold counter contains refrigerated wells for self-serve salad and olive bars. ISLA's new in-line hot counter has individual well controls and an Automatic Waterfill system in the case (that fills and drains water without labor). And the ISLA soup counter has 11-quart soup wells and the Automatic Waterfill system as well. Each counter is available with either a wrap-around bumper or a flush-end option.

HUSSMANN® THE Q SERIES

The "Q" Series lets you make foods look irresistible by displaying them with upscale style and flair. Your fresh, prepared foods will be showcased for maximum visual appeal. Use for prepared foods, deli selections, bakery offerings . . . hot or cold.

Q1-SS

Stylish curves combined with sleek design elements such as a plexiglass front create enhanced product visibility. The Q1-SS features granite or solid surface, which allows for an amazing merchandising display. Designed for ease of installation the Q1-SS has a simplified design that assures proper "fit" and does not require unsightly joint trim.

HUSSMANN® *Excel*

B3XC-LEP

The B3XC-LEP is 4" deeper (front to back) than our standard Excel multi-deck fixtures. This allows higher volume display of deli items, grab and go foods, cheese, packaged produce and more.

The case is a medium height (59 7/8" tall) for easy shopping in higher volume departments. Interior merchandising space is 34 1/8" deep (front to back at lower deck) by 37 1/8" tall. Glass front is standard on the B3XC-LGEP model.

Modular coils and off-time defrost work to reduce thermal shock and stabilize product temperatures, resulting in better freshness and longer shelf life.

Bulk Convertible Merchandiser!
Displays High Volume of Products!

REMOTE	L	D	H
B3XC-4LEP	51 3/8"	46"	59 7/8"
B3XC-6LEP	75 3/8"	46"	59 7/8"
B3XC-8LEP	99 3/8"	46"	59 7/8"
B3XC-12LEP	147 1/2"	46"	59 7/8"

B3XC-LGEP

Superior Reliability!

Like its alternative, the B3XC-LGEP is 4" deeper (front to back) than our standard Excel multi-deck fixtures, allowing higher volume display of deli items, grab and go foods, cheese, packaged produce and more.

Unlike the B3XC-LEP however, the LGEP comes standard with front glass, resulting in a higher front end.

REMOTE	L	D	H
B3XC-4LGEP	51 3/8"	46"	59 7/8"
B3XC-6LGEP	75 3/8"	46"	59 7/8"

B4X-E

The B4X-E high-volume multi-deck is the newest case in Hussmann's bulk line-up. With four decks and an 82" height, the B4X-E can hold four layers of product for easy shopping in higher volume departments. It is 4" deeper (front to back) than our standard Excel multi-deck fixtures for maximum pack-out of bulk medium temp items. Interior merchandising space is 34 1/8" deep (front to back at lower deck) by 53 3/8" tall. Modular coils and off-time defrost work to reduce thermal shock and stabilize product temperatures, resulting in better freshness and longer shelf life!

RPI Merchandisers are designed for use in stores where ambient temperatures and humidity do not exceed 75 Degrees Fahrenheit and 55% R.H. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioning diffusers, ovens, etc. will disrupt the case air curtain and refrigerated zone.

RPI in line with its policy to continually improve its products reserves the right to change materials and specifications without notice.
