

MODEL # SCCB-CR

SPECIFICATIONS

The Continental Bakery SCCB-CR Series is a two compartment refrigerated display case consisting of a convertible service top section and a refrigerated self-service bottom section. Top section includes baffle for converting temperature between refrigerated and ambient. Available with a choice of standard grade plastic laminate exterior ends. The lower section has stainless steel deck pan(s) with a raised fitted hemmed edge to contain spills. Deck pan can be removed for easy cleaning.

Available lengths: 36" 48" 60" 72"
Available depths: 35 3/4"
Available heights: 54"

Electrical & Plumbing locations

Conforms to UL Standard 471, and NSF Standard 7; Certified To CSA Standard C22.2 No.120

RPI refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards

1. The SCCB-CR merchandiser is designed for use in stores where temperature and humidity do not exceed 75 degrees F and 55% R. H. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioners, ovens, etc. will disrupt the case's air curtain and refrigerated zone within. Any adverse field conditions stated above will void warranty.

RPI in line with it's current policy to continually improve it's product reserves the right to change materials and specifications without notice.
