

3-TIER SQUARED HOT DISPLAY WITH REAR FEED

SPECIFICATIONS

Patented technology is designed to allow hot air convection, which enables the individual zones to be controlled, maintaining the quality of the product. The innovative technology of Flexeserve Zone® gives the versatility of tailoring the hot food offerings, reducing product waste from the ability to turn zones on or off predicated upon the time of day and customer demands! These Models feature rear hinged access doors for easy operator loading.

- Available lengths: 23 5/8" 39 3/8"
 Available depths: 28"
 Available heights: 54 3/8"
