

MODEL # SCCB-CS

SPECIFICATIONS

The Continental SCCB-CS Series is a three compartment refrigerated display case consisting of a refrigerated self-serve lower section and a service refrigerated and non-refrigerated split upper section. The lower section has stainless steel deck pan(s) with a raised fitted hemmed edge to contain spills. The deck pan can be removed for easy cleaning. The upper section is a split display area with one side refrigerated and one side non-refrigerated with glass shelves and an energy efficient LED top canopy light.

Available lengths: ☐ 48" ☐ 60" ☐ 72"

Available depths: ☐ 35 3/4"

Available heights: ☐ 54"

To CSA Standard C22.2 No.120

RPI refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards

1. All units must be run to a floor drain at time of installation.

2. The SCCB-CS merchandiser is designed for use in stores where temperature and humidity do not exceed 75 degrees F and 55% R. H. Locate away from direct sunlight, rapid air currents and extreme temperature changes, Exposure to air currents from ceiling fans, air conditioners, ovens, etc. will disrupt the case's air curtain and refrigerated zone within. Any adverse field conditions stated above will void warranty.

RPI in line with it's current policy to continually improve it's product reserves the right to change materials and specifications without notice.
