# VIENNA WINE DISPLAY

## MODEL # VICD-68-R-SQ-SC

**PROJECT:** \_\_\_\_\_  
**TOLL FREE: 800-525-3692**

Bottle capacity: 130 (per door section)

Contact factory to discuss alternate racking options if you need more or less bottle capacity or want to use a variety of bottle displays.

1. A 1 1/8" diameter drain is provided. The drain **MUST** be connected to a floor drain or storage container **AT TIME OF INSTALLATION**.
2. For self-contained units, ventilation louvers **MUST** be provided in the cabinet or counter and located so to provide full ventilation for the condensing unit.
3. For remote units refrigerant must be verified by customer at the time of order to ensure proper expansion valve is provided.
4. The VICD2 merchandiser is designed for use in locations where temperatures and humidity do not exceed 75 degrees and 55% R.H. Unit is designed for air flow from front to rear and requires a minimum of 7" clearance behind and above unit. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioners, ovens, etc. will disrupt the cases air current and refrigeration zone within. Any adverse field conditions stated above will void warranty.

RPI in line with it's policy to continually improve it's product reserves the right to change materials and specifications without notice.
