Electrical & Plumbing locations

- Condensing unit easily slides out.
DO NOT BLOCK this area.
- Condensing unit requires adequate ventilation.

1. A 1" diameter drain is provided. The drain **MUST** be run to a floor drain **AT TIME OF INSTALLATION**.
2. RPI Merchandiser is designed for use in stores where ambient temperatures and humidity do not exceed 75 Degrees Fahrenheit and 55% R.H. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioning diffusers, ovens, etc. will disrupt the case air curtain and refrigerated zone. Refrigerated Displays are designed to maintain pre-chilled products. Adding or loading warm products above 41 Degrees Fahrenheit can affect the temperature in the entire cabinet.
Any adverse field conditions stated above will void warranty.

RPI in line with its policy to continually improve its products reserves the right to change materials and specifications without notice.
