Electrical & Plumbing locations

2 1/2" HOLE REQUIRED FOR COOLING AND DRAINAGE LINES

Customer Side

RPI Merchandiser is designed for use in stores where ambient temperatures and humidity do not exceed 75 Degrees Fahrenheit and 55%RH. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioning diffusers, ovens, etc. will disrupt the case air curtain and refrigerated zone.

Refrigerated Displays are designed to maintain pre-chilled products. Adding or loading warm products above 41 Degrees Fahrenheit can affect the temperature of the entire cabinet. Any adverse field conditions stated above will void warranty.

For remote units, refrigerant must be verified by customer at the time of order to ensure proper expansion valve is provided.

RPI in line with it's current policy to continually improve it's product reserves the right to change materials and specifications without notice
