

About the Product

Design meets functionality. It has a chilling liquid that circulates within the bucket's walls. As a result, the unit forms a frost on the outside of the bucket just from the humidity in the air. Enjoy an array of chilled beverages on display and entertain guests. A conversation starter in lobbies, banquet rooms, restaurants, and country clubs.

Features

- 6 top colors
- Ice Rock Bucket beverage chiller

Model

HI stone top, laminate drop edge, radius corners, closed millwork base, Formica or Wilson Art standard laminate exterior, swivel casters, self-contained refrigeration, electric condensate evap pan, 8' cord, NEMA 5-20P. 30" W x 30" W x 48"H.
